What our customers say..

"We are thrilled with our partnership with Gourmet Basket. Our customer service standards are very high, & we required something unique to ensure these standards were met. They allowed us to create our own gift which included our own LinkedIn products, specially designed branding, & an online ordering tool for our staff. Their service has been exceptional & our business partners were surprised & delighted when they received an unexpected gift from us"

Alicia Kearns, Customer Marketing Manager, LinkedIn

What our customers say..

"Gourmet Basket has been our trusted partner for our staff & customer gift program for 4 years now. Their gifts are just beautiful & have delighted everyone who has received one over that time. The online ordering system also enables our staff to order directly without needing a credit card, which is so convenient, & they are ready to customise something special for us at the drop of a hat! Highly recommended."
